

QUAD RIDERS ATV ASSOCIATION OF BC

RIDE WITH PRIDE, YOUTH EDUCATION & SAFETY PROGRAM

A better understanding of ATV use, the need for safety at all times by:

- Describing potential risks for injury in a variety of settings
- How to remove/reduce hazards and risks in a variety of settings
- Describe responsible safety behavior on roads and in communities
- Using the appropriate size ATV and wearing protective clothing, helmet, goggles and gloves.

We are planning to train 6 people from Northern BC to become efficient in teaching “The ATVBC Ride with Pride Youth Education Program” to grades 4 through 7 students. We will also be talking with the School Boards, Principals and Teachers in Northern BC to ensure the appropriate instructional protocols are followed.
