

VALEMOUNT ELEMENTARY SCHOOL PARENT ADVISORY COUNCIL

VALEMOUNT KIDSAFE

Our project hopes to address safety education for elementary school aged children and their parents to encourage the use of safety helmets as well as booster seats. It will provide the information necessary to increase road safety awareness as well as offer the tools (like the actual helmets and booster seats) to allow families to take the next steps to become more safe on the roads.

We plan to work with our local RCMP, ICBC and CN Rail. Our plan is to hold a few safety assemblies to discuss road and vehicle safety including proper use of bike helmets, importance of booster seats and seat belts, railway crossing safety, and ATV laws/safety.
